CURRICULUM VITAE
Sebastian Klimas
Software Developer

ABOUT ME

I have completed my studies in applied informatics (I have not yet defended my research paper). I have had a lifelong passion for computer science and programming in particular. During my studies, I have been involved in student and commercial projects, which has allowed me to learn about and integrate with many programming environments.
I am interested in the world of new technologies and the developing artificial intelligence.
In my spare time I like to expand my knowledge of politics mainly from a socio-economic aspect.

PORTFOLIO

https://sebastianklimas.pl
https://github.com/s-klimas

SKILLS

good knowledge of Java and Java frameworks
Spring, JPA standards, Hibernate, Liquibase, Junit 5, AssertJ, Mockito

knowledge of useful development tools
Docker, Mockaroo, Postman

good knowledge of PHP and PHP frameworks
Laravel

basic understanding of Python
PySimpleGUI

good knowledge of MS Excel
